

## Bee Trained

Looking for a friendly outfit to provide you with affordable and professional training? *Look no further!*

Bee Trained caters for a wide range of needs with a range of courses available.

We make use of modern and varied teaching techniques with large screen projection and multimedia as a presentation medium.

And it makes no difference to us if we're training a group of professionals in a business environment, or a bunch of individuals for a voluntary organisation. We still work to the same high standard.

Some courses are informational based, giving good ideas and best practice, whilst others are accredited with certification after testing.

You'll find us friendly, yet professional, with a fresh approach in many aspects of our work together.

Feel free to contact us via any of the methods below.

You'll find us friendly and approachable, yet professional too!

If you have a requirement not detailed here, please give us a call. It's more than likely we can accommodate your request!

We're based in Ipswich, Suffolk, but more than willing to travel!

## Courses

Bee Trained are pleased to offer a variety of courses and seminars for you.

We're happy with any type of audience - young, old, male, female or a mixture of everyone!

Some of our courses are seminar based, where we present information, good ideas or best practice. Others are accredited courses with formal testing in order to receive certification.

We come to you with all the necessary equipment and where possible, relevant materials and objects for audience participation.

We're qualified trainers and presenters, and take pride in everything we do.

Available during the day and evenings, weekdays and weekends, you'll find us friendly, with a fresh approach and a multitude of ideas that are put into practice to engage all of your senses!

Further information on any of the courses shown here is available from the web site, including prices. You'll find us refreshingly affordable!

Many courses are run according to demand. You can always contact us by phone or email to find out more, or to discuss a requirement not shown here.

## Food Hygiene

This Chartered Institute of Environmental Health accredited training course gives attendees an official certificate in Foundation Food Hygiene (previously known as Basic Food Hygiene). This is the minimum training requirement for those people involved in the preparation of food, or in the food processing industry.

**Chartered  
Institute of  
Environmental  
Health**

## Media in worship

This seminar shows how to make the best use of all types of media in worship. Full of ideas for you to take away, we deal with both theory and practice - including real life examples of those do's and don'ts!

## Unravelling the web

The internet for beginners - you'll understand the basics after untangling the jargon from this seminar. Learn about how it all started, and what it looks like. See how to keep your children safe, and what the future holds. Enlightening for young and old alike.

## Internal Auditing

This training course shows the in's and out's of becoming a successful internal auditor.

## HACCP

A training course on Hazard Analysis and Critical Control Point system as extensively used in the food production industry. Seem like a foreign language to you? Maybe you need this course!

## Web Design

A seminar on best practice and considerations for web page design is a must for newbies, including basic technical information behind the tools you'll probably use.

## Using the PC

Tailorable to any level, and offering modules in Managing Windows, Microsoft Word, Excel, Outlook, PowerPoint and Publisher. Become more proficient on your PC with this training course!

## Stress free Youth Camps

Ever ran a youth camp? Was it stress free? Drawn from the hard earned experience of the presenter, walk away with new ideas, good practice, and funny stories from this informative seminar.
